SUMMARY

I am an adept software developer with 2 years of experience in Python and C++. During my tenure, I have successfully executed diverse projects, such as Password Generator and Pomodoro applications. My proficiency is complemented by strong communication skills, enabling me to work seamlessly in multicultural teams, exuding confidence and requiring minimal supervision. I am a dynamic individual, combining technical expertise with a vibrant personality and excellent interpersonal abilities.

WORK EXPERIENCE

Full Stack Development Intern

Diplomat University   Tashkent, Uzbekistan   10.2023-01.2024

- Wrote E-Library platform with fluency in modern front-end and back-end frameworks.
